# CHAIRMAN'S STATEMENT

On behalf of the Board of Directors ("**Board**"), I present the Annual Report and Financial Statements of Amplefield Limited (the "**Company**", and together with its subsidiaries, the "**Group**") for the financial year ended 30 September 2022 ("**FY2022**").

The global economy is facing unprecedented challenges in several fronts as we move into 2022. The prolonged war in Europe, persistent and broadening inflation pressures and the slowdown in China caused by COVID lockdowns have caused the initial optimism to fade as the year passes by. The global output is now estimated to grow by only 3.2%<sup>1</sup> in 2022 (2021: 6.1%<sup>2</sup>). The projected growth rate for 2023 is even lower at 2.7%<sup>1</sup>. Downside risk remains high as the contributory factors remained largely unresolved.

Against this background, the Group's revenue has increased from \$3.1 million in FY2021 to \$12.2 million in FY2022. This was due to contribution from our property development & construction segment of \$9.5 million for FY2022 (FY2021: \$0.8 million). Meanwhile, rental income from investment properties increased slightly to \$2.6 million (FY2021: \$2.4 million) due mainly to higher level of occupancy from our investment properties. Despite the higher revenues, the Group incurred a loss of \$5.3 million for the current year against a profit of \$0.4 million for FY2021 due mainly to impairment of goodwill of \$1.2 million and development properties write-downs of \$2.0 million as the Group prepares for an economic slowdown in the major economies in the coming year.

The Group will continue to consolidate its business and look out for additional income stream through organic growth as well as through acquisitions. In line with that, the Group had earlier obtained shareholders approval at an EGM on 28 August 2020 to expand its core businesses into property development and construction in Malaysia as well as diversifying into the manufacturing business.

On 26 January 2022, the Company had obtained shareholders' approval for a share buyback mandate. At the forthcoming AGM on 17 January 2023, the Company will be proposing to renew this share buyback mandate. The approval of the share buyback mandate will give the Company flexibility to undertake purchases or acquisitions of its own shares subject to certain terms and conditions. A share buyback at the appropriate price level is one of the ways through which the return on equity of the Company may be enhanced. Shares purchased pursuant to the share buyback mandate will either be cancelled or held as treasury shares. Shares purchased pursuant to the share buyback mandate and held as treasury shares may be (i) used as consideration for the acquisition of shares or assets of another company, (ii) sold in the event of future share placements or (iii) transferred pursuant to an employee's share scheme. Share buybacks by the Company may also help to mitigate short term share price volatility or trading trends which are not otherwise caused by general market factors or sentiments or the fundamentals of the Company and offset the effects of short-term speculation and bolster shareholders' confidence.

The Group recognizes that embracing sustainable practices is a business priority that is important for the long-term development and success of our business. In this respect, we have issued our first Sustainability Report for FY2018 in September 2019, which was based on the Global Reporting Initiative G4 Reporting Guidelines. In line with our efforts to go green and as part of our social responsibility initiatives and sustainability strategy, we are implementing the use of electronic communications for purposes of serving notices to the Company's shareholders. We hoped that we will have your wholehearted support in this area of embracing electronic communications. We will be publishing our FY2022 sustainability report no later than 31 January 2023.

On behalf of the Board, I would like to extend our thanks to our valued customers, business partners and financiers for their continued support. I would also like to express our appreciation to the management and staff of the Group for their dedication and hard work to see us through an eventful year.

In closing, I also extend my personal thanks and gratitude to my fellow directors for their valuable contribution, and to our shareholders for their unwavering support.

**Albert Saychuan Cheok**

## BOARD MATTERS

### Principle 1: Board's Conduct of its Affairs

*The company is headed by an effective Board which is collectively responsible and works with Management for the long-term success of the Company.*

The Board is collectively responsible and works with Management for the long-term success of the Company and the Group.

The Board works with Management to develop and implement the Company’s corporate and business strategy and direction and to hold Management accountable for performance. All directors recognize that they have to discharge their duties and responsibilities at all times as fiduciaries and act in the best interests of the Company and Shareholders as a whole.

The Board has put in place a Code of Ethics and Conduct to create a corporate culture within the Group to operate the businesses of the Group in an ethical manner and to uphold the highest standards of professionalism and exemplary corporate conduct.

To address potential conflicts of interests, the Board has adopted a policy where Directors who are interested in any matter being considered are required to notify the Company promptly of all conflicts of interest as soon as practicable as well as when required and refresh the required declarations annually, recuse themselves from deliberations and abstain from voting in relation to any such resolution(s) relating to such matter.

Such training will be completed within one year of the appointment.

There was no new director appointed during FY2022 other than Dato Sri Yap Teiong Choon ("**Dato Sri Yap**") who was appointed Executive Vice Chairman on 28 October 2021. He was previously the Executive Director of the Company from 2003 to 2016 and has been regularly attending seminars and webinars organised by professional accounting bodies and was a director of a company listed on Bursa Malaysia until August 2019. Independent Directors are assessed as such based, *inter alia*, on such criteria and considerations as set out below in the discussions of the Company's practices and processes in relation to Principle 4 of the Code.

The Chairman of the Board is an Independent Director, and at least one-third of the Board comprises Independent Directors, as required under Rule 406(3)(c) of the Catalist Rules with effect from 1 January 2022. While the Board will continue to have the requisite number of Independent Directors as required under Rule 406(3)(c) of the Catalist Rules, however, consequent to the appointment of Dato Sri Yap as Executive Vice Chairman on 28 October 2021, it has less than a majority of its Board members comprising Non-Executive Directors. Nevertheless, the NC will endeavor to comply with Provision 2.3 of the Code by continuing to assess the Board composition from time to time and to make appropriate recommendations to the Board when necessary.

# CORPORATE GOVERNANCE STATEMENT

Notwithstanding that, the NC is presently satisfied that the current composition of half of its Board comprises Independent and Non-Executive Directors would have an appropriate level of independence to enable it to make decisions in the best interests of the Company as the independent directors are sufficiently experienced and the Independent Chairman has a casting vote in case of a deadlock.

The Company currently does not have a formal Board diversity policy but will review the need or feasibility of having such policy when appropriate. Notwithstanding the absence of a formal Board diversity policy, the NC is tasked to review the structure, size and composition (including the skills, knowledge and experience of the Board) at least annually and to assist the Board to review the required mix of skills, experience and other qualities which Non-Executive Directors should bring to the Board on an annual basis.

In connection with the annual review and assessment of the performance of the Board and Committees and Directors, the NC has evaluated the respective skills, knowledge and experience of the Non-Executive Directors on the Board, and considered that they collectively possess core competencies in areas such as accounting or finance, regulatory matters (including those applicable to securities and capital markets), corporate governance matters, risk management, business or management experience and industry knowledge. Combined with the Executive Directors' and Management's extensive knowledge of the business and operations of the Company and the Group, the current mix and composition of the Board allows the Company and the Group to implement the Company's corporate strategy and remain nimble and responsive to business opportunities which may arise from time to time, as well as to robustly evaluate the corporate strategy for the Company in light of these business opportunities where required.

The NC has accordingly reported to the Board that they are of the view that the Board and Board Committees comprise persons who, as a group, provide an appropriate balance and diversity of the relevant skills, experience and expertise required, inter alia, to ensure effective governance of the Company and to facilitate the furtherance of the corporate strategy of the Company.

The NC has also reported to the Board that they are of the view that given the nature and scope of the Company and the Group's business and operations, the present Board size of eight members is appropriate to facilitate effective decision-making to meet the needs and demands of the Company and the Group's business and operations.

The Board has concurred with the NC's views and recommendations as aforesaid.

Notwithstanding the foregoing, the Board will continue to monitor and review the mix and composition of the Board, including to consider the appropriateness of Board renewal should the opportunity arise or if the circumstances warrant it.

The Board and Management recognises that an effective and robust board is crucial to good corporate governance, where members engage in open and constructive debate and challenge management on its assumptions and proposals. For this to happen, the Board, in particular, the non-executive directors, must be kept well informed of the Company's businesses and affairs and be knowledgeable about the industry in which the businesses operate.

Management regularly presents proposals or reports for the Board's consideration and approval (where appropriate), for instance, proposals on the annual budget of the Group, proposals relating to specific proposed transactions or general business direction or strategy of the Group, as well as regular reports or updates on the Group's inventory management and risk management.

The Non-Executive Directors will evaluate the proposals or reports presented by Management for their consideration and through active participation during Board meetings, constructively and judiciously challenge the basis or assumptions made by Management and these Directors also review the performance of Management in meeting agreed goals and objectives and monitor the reporting of performance. The Non-Executive Directors will also, where appropriate, provide guidance to Management on relevant aspects of the Group's business and assist in the development and implementation of the Company and the Group's corporate and business strategy.

The Non-Executive Directors will meet or confer in discussions without the presence of Management and the Independent Directors will meet or confer in discussions without the presence of Management or other Directors when circumstances warrant, and the Independent Directors meet regularly without the presence of Management in the meetings with the external and internal auditors at least annually, and on such other occasions as may be required and the chairman of such meetings provides feedback to the Board and/or the Chairman as appropriate.

The profile of each Directors which includes key information regarding academic qualifications, directorships and chairmanship both present and those held over the preceding three years in other listed companies and other principal commitments is set out on pages 4 to 7 of this Annual Report.

## Principle 3: Chairman and Chief Executive Officer

*There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.*

The roles of the Independent Chairman and CEO (or equivalent) are separate to ensure a clear division of their responsibilities, increased accountability and greater capacity of the Board for independent decision making.

Albert Saychuan Cheok is the Independent Chairman of the Board and is responsible for the following:

- (a) to lead the Board to ensure its effectiveness on all aspects of its role;
- (b) to promote a culture of openness and debate at the Board;
- (c) to facilitate the effective contribution of non-executive directors in particular;
- (d) to promote high standards of corporate governance; and
- (e) to set the agenda for Board meetings.

The responsibilities of the CEO (or equivalent) are as follows:

- (a) to progress and advance the strategic direction provided by the Board; and
- (b) the overall day-to-day operational running of the Company, pursuant to the Board delegating to him certain of the Board's powers, authorities and discretions.

Notwithstanding that the Company has not appointed a CEO, the above responsibilities of the CEO are undertaken by Dato' Sri Yap, who is responsible for the overall day-to-day operations of the Group and plays a leading role in developing the business and direction of the Group.

The Chairman also ensures that Board meetings are held regularly and on an ad hoc basis where required and, when necessary, sets the Board meeting agendas in consultation with the Management and the Company Secretary. The Chairman presides over each Board meeting and ensures full discussion of agenda items. Management staff, as well as external experts who can provide additional insights into the matters to be discussed, are invited when necessary, to attend at the relevant time during the Board meetings.

The Company did not appoint a lead independent director as:

- (a) the Chairman and the CEO (or equivalent) are not the same person;
- (b) the Chairman and the CEO (or equivalent) are not immediate family members;
- (c) the Chairman is not part of the management team; and
- (d) the Chairman is an Independent Director.

## Principle 4: Board Membership

*The Board has a formal and transparent process for the appointment and re-appointment of directors, taking into account the need for progressive renewal of the Board.*

The NC of the Company comprises four Directors, all of whom, including its Chairman, are Independent Directors. Further details on the composition of the Nominating Committee is set out in page 2 of this annual report.

The NC is governed by written terms of reference which include, inter alia, the following duties and responsibilities:

- (a) to review the structure, size and composition (including the skills, knowledge and experience of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy;

# CORPORATE GOVERNANCE STATEMENT

- (b) to identify individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships;
- (c) to assess the independence of Independent Non-Executive Directors;
- (d) to make recommendations to the Board on the appointment or re-appointment of directors and review of board succession plans for directors, in particular the Chairman and the Executive Directors;
- (e) board appointments and re-nominating retiring Directors for re-election in accordance with the Company's Constitution at annual general meetings after having considered important issues, as part of the process for the selection, appointment and re-appointment of Directors, as to composition and progressive renewal of the Board and each directors' competencies, commitment, contribution and performance including, if applicable, as an independent director;
- (f) to review the training and professional development programs for the Board;
- (g) ensuring all Directors submit themselves for re-nomination and re-appointment at regular intervals and at least once every three years;
- (h) to assist the Board to review the required mix of skills, experience and other qualities which Non-Executive Directors should bring to the Board on an annual basis;
- (i) to review and approve any new employment of related persons and proposed terms of their employment;
- (j) to develop a process for evaluation of the performance of the Board, its Board Committees and Directors; and
- (k) to determine whether or not a Director of the Company is able to and has been adequately carrying out his duties as a Director.

The Company has in place a process for selecting and appointing new Directors and nominating existing Directors for re-appointment. Such process includes, in the case of a new Director to be appointed, inter alia, an evaluation of a candidate's qualifications and experience with due consideration being given to ensure that the Board consists of members who as a whole will collectively possess the relevant core competencies in areas such as accounting or finance, legal and regulatory matters, risk management, business or management experience and industry knowledge. The search for new Directors, if any, will, if considered necessary, be made through executive search companies, contacts and recommendations and shortlisted persons will be evaluated by the NC before being recommended to the Board for consideration.

The Company's Constitution ("**Constitution**") requires at least one-third of the Directors, or if their number is not a multiple of three, the number nearest to but not less than one-third of the Directors, to retire from office by rotation once every three years and shall then be eligible for re-election at the meeting at which he retires.

Existing Directors are put up for retirement and re-election in accordance with the foregoing requirement, and the NC will recommend the nomination of a Director for re-election after considering, inter alia, the Director's competencies, commitment, contribution and performance, as well as the need for progressive renewal of the Board.

The NC will consider the need for Board renewal as and when necessary or appropriate, as part of succession planning. At the Management level, action plans and training programmes are in place to build-up the next level of management team to support senior management.

The NC has, with the approval of the Board, established performance criteria and evaluation procedures for evaluation and assessment of the effectiveness and performance of the Board, the Committees and the Directors, as elaborated in the section below discussing the Company's practices and processes in relation to Principle 5 of the Code.

Each member of the NC will abstain from voting on any resolution of the Nominating Committee or the Board (if applicable) in respect of the assessment of his/her performance or nomination for re-election as Director.

## Review of the independence of Independent Directors

The NC determines on an annual basis whether or not a Director is independent in accordance with Rule 406(3)(d) of the Catalyst Rules and the Code bearing in mind the Code's definition of an "**Independent Director**" and guidance as to the relationships, the existence of which would deem a Director not to be independent. As and when circumstances require, the NC will also assess and determine a Director's independence.

The Board considers an Independent Director as one who, inter alia, has no relationship with the Company, its related corporations, its substantial shareholders or its officers that could interfere, or be reasonably perceived to interfere, with the exercise of the Director's independent business judgment with a view to the best interests of the Company.

# CORPORATE GOVERNANCE STATEMENT

In line with the guidance in the Code, the Board takes into account the existence of relationships or circumstances that are relevant in its determination as to whether a Director is independent, including the employment of a Director by the Company or any of its related corporations during the financial year in question or any of the previous three financial years; the employment of an immediate family member by the Company or any of its related corporations during the financial year in question or any of the past three financial years and whose remuneration is determined by the Remuneration Committee; the acceptance by a Director of any significant compensation from the Company or any of its related corporations for the provision of services during the financial year in question or the previous financial year, other than compensation for board service; a Director being related to any organisation from which the Company or any of its subsidiaries received significant payments or material services during the financial year in question or the previous financial year; a Director who is a substantial shareholder of the Company or is an immediate family member of a substantial shareholder; a Director who is or has been associated with a substantial shareholder of the Company in the financial year in question or the previous financial year; and a Director who has been a Director for an aggregate period of more than nine years and whose continued appointment as an independent director has not been sought and approved in separate resolutions ("**Two-Tiered Voting**") by (i) all shareholders; and (ii) all shareholders, excluding shareholders who also serve as the Directors or the CEO (or equivalent), and their associates.

The Board recognises that Independent Directors who may have served more than nine years may over time develop significant insights into the Group's businesses and operations and can continue to provide significant and valuable contributions to the Board. Where there are such Directors, the NC and the Board will review vigorously their continuing contributions and independence and may exercise its discretion to extend the tenure of these Directors where appropriate.

In connection with the annual review and assessment of the performance of the Board and Committees and Directors, the NC has carried out a review on the independence of each Independent Director based on the considerations set out above taking into account the respective Directors' self-declaration in the Director's Independence Checklist and their actual performance on the Board and Committees, the additional considerations as stated below, and is satisfied that the Independent Directors are able to act with independent judgment.

Each Independent Director of the Company has completed a checklist ("**Directors' Independence Checklist**") to confirm his independence in connection with the annual review and assessment of the performance of the Board and Committees and Directors. The checklist is drawn up based, inter alia, on the requirements and guidelines provided in the Code and the Catalist Rules.

One of our Independent Directors, namely Mr Albert Saychuan Cheok, having been first appointed to the Board on 25 November 2009, has served on the Board for more than nine years, and as such, had sought shareholders' approval for his continued appointment as an independent director at the annual general meeting held on 22 January 2021 under the Two-Tier Voting. There are no other Independent Directors who has served beyond nine years from his first appointment.

## Commitments of Directors sitting on multiple boards

The Board has set the maximum number of listed company board representations which any Director may hold as 10. The listed company directorships and principal commitments of each Director is set out on pages 11 to 12 of this Annual Report.

The NC has reviewed each Director's outside directorships and their principal commitments. Despite the multiple directorships of some Directors, the NC was satisfied that such Directors spent adequate time on the Company's affairs and have carried out their responsibilities and duties as a director of the Company. The NC has taken into account the results of the assessment of the effectiveness of the individual director, the level of commitment required of the director's other principal commitments, and the respective directors' actual conduct and participation on the Board and board committees, including availability and attendance at regular scheduled meetings and ad-hoc meetings, in making the determination, and is satisfied that all the directors have been able to and have adequately carried out their duties as director notwithstanding their multiple listed board representations and other principal commitments.

## Training and professional development

The NC, working in conjunction with Management, keeps a constant lookout for appropriate training and professional development programmes from time to time offered by professional bodies such as the Singapore Institute of Directors and external training institutes and service providers, and recommends them to Board members for attendance or participation. Individual Directors may from time to time attend separate training and professional development programmes, in connection with their own profession or work or other directorships which they may hold.

- the external auditors had briefed the AC on changes or amendments to accounting standards; the Company Secretary had updated the Board on regulatory changes, such as changes to the Companies Act, Code and/or the Catalist Rules, as and when necessary.

## **Principle 5: Board Performance**

*The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its board committees and individual directors.*

The NC has, with the approval of the Board, established performance criteria and evaluation procedures for evaluation and assessment of the effectiveness and performance of the Board, the Committees and the Directors, which includes evaluation of the performance of the Board and the Board Committees as a whole, as well as evaluations of individual Directors.

Evaluations of individual Directors aim to assess whether that individual has contributed effectively and demonstrated commitment to the role (including commitment of time for the meetings of Board and Board committees, and any other duties), taking into consideration inter alia, the Director's competencies, commitment, contributions and performance at Board and Board Committee meetings and discussions, including attendance, preparedness, participation and candor.

The Company has established certain criteria (as set out below) to evaluate the performance of the Board, the Committees and the Directors.

Performance Criteria		
	Board and Board Committees	Individual Directors
Qualitative Factors	<ol style="list-style-type: none"> <li>Size and composition</li> <li>Access to information</li> <li>Quality of Board processes</li> <li>Inputs to strategic planning</li> <li>Board accountability</li> <li>Executive Director/Top Management interaction</li> <li>Guidance provided to Management</li> <li>Standard of Conduct</li> </ol>	<ol style="list-style-type: none"> <li>Commitment of time</li> <li>Knowledge and abilities</li> <li>Teamwork</li> <li>Overall effectiveness</li> <li>Engagement with Management</li> <li>Level of participation</li> <li>Attendance record</li> </ol>

# CORPORATE GOVERNANCE STATEMENT

The NC would review the criteria on a periodic basis to ensure that the criteria is able to provide an accurate and effective performance assessment taking into consideration, inter alia, industry standards and the needs and requirements of the Company and the Group, and thereafter propose amendments if any, to the Board for approval.

After review, the performance criteria for FY2022 remained the same as the previous financial year as the NC is of the view that such criteria remained largely useful and relevant in assessing the effectiveness of the Board and the Board Committees as well as the performance of individual Directors.

The following process was undertaken in relation to the annual evaluation of the performance of the Board, the Board Committees and the Directors for FY2022:

Each of the Directors has completed a Board Performance Evaluation Checklist, giving their individual assessment and evaluation of the Board's ability and Committees' ability to meet the relevant criteria stated in the Board Performance Evaluation Checklist.

In addition, each of the Directors has completed an Individual Directors' Evaluation Checklist, giving their assessment and review of other Directors' performance.

The results of such assessment and evaluation were collated by the Company Secretary for the NC's review and consideration. The NC would evaluate the assessment results and takes into consideration the results of the performance evaluation, inter alia, for purposes of evaluating the independence of the Independent Directors, making recommendations in respect of Directors who are seeking re-election, and, where necessary, makes recommendations to the Board on areas where the performance and effectiveness of the Board and Committees could be enhanced or improved.

The NC has performed the annual evaluation of the performance of the Board, the Board Committees and the Directors for FY2022 as aforesaid and is of the view that the performance of the individual Directors, the Board Committees and the Board as a whole were generally satisfactory and has met the various objectives and criteria as set out under the existing framework for performance evaluation. No external facilitator was used in the evaluation process.

Each member of the NC has abstained from discussions and voting on any resolutions in respect of the assessment of his performance or nomination for re-election as a Director.

## **Principle 6: Procedures for Developing Remuneration Policies**

*The Board has a formal and transparent procedure for developing policies on director and executive remuneration, and for fixing the remuneration packages of individual directors and key management personnel. No director is involved in deciding his or her own remuneration.*

The RC comprises four Directors, all of whom are Independent Directors. Further details on the composition of the Remuneration Committee is set out in page 2 of this annual report.

The RC is governed by written terms of reference which include, inter alia, the following:

- (a) review, determine and recommend to the Board a framework of remuneration for Directors and key management personnel to ensure the package is sufficient to attract and retain people of required calibre to run the Company successfully. The review covers all aspects of remuneration including but not limited to Directors' fees, salaries, bonus, options and benefits-in-kind;
- (b) determine the specific remuneration package for Executive Directors and key management personnel based on performance, service seniority, experience and scope of responsibility. Such remuneration packages are periodically benchmarked to market/industry standards;
- (c) recommend the fees payable to non-executive Directors based on level of responsibilities undertaken by them;
- (d) administer any long-term incentive scheme (if applicable);
- (e) engage external professional advisors to assist and/or advise the Committee, on remuneration matters, where necessary; and
- (f) provide clarification to shareholders during general meetings on matters pertaining to remuneration of directors and senior management as well as the overall remuneration framework of the Company.

# CORPORATE GOVERNANCE STATEMENT

All aspects of remuneration of Directors and key management personnel, including but not limited to Directors' fees, salaries, allowances, bonuses, options and benefits-in-kind (including any changes thereto) and termination terms are subject to the review and approval of the Remuneration Committee for recommendation to the Board.

All recommendations made by the RC on remuneration of Directors and Key Management Personnel will be submitted for endorsement and approval by the Board.

Each member of the RC will abstain from reviewing and voting on any RC resolution approving his own remuneration and the remuneration packages of persons related to him, and no member of the RC or the Board is involved in setting or deciding his own remuneration package.

As and when deemed appropriate by the RC, independent expert advice is sought at the Company's expense. The RC shall ensure that existing relationships, if any, between the Company and its appointed remuneration consultants will not affect the independence and objectivity of the remuneration consultants.

For FY2022, the Company did not engage any external remuneration consultant to assist in the review of compensation and remuneration packages of Directors and key management personnel, inter alia, as there was no significant change to their respective roles or responsibilities and/or to the size and scope of the Company and the Group's business and operations to warrant a review of such compensation and remuneration packages. Notwithstanding, the Company shall consider the engagement of external remuneration consultants should the compensation and remuneration packages of Directors and key management personnel come for renewal or further consideration, or where the Group's business or operations change or expand to the extent where expert advice from such external remuneration consultants may be deemed necessary or appropriate.

## **Principle 7: Level and Mix of Remuneration**

*The level and structure of remuneration for the Directors and key management personnel are appropriate and proportionate to the sustained performance and value creation of the company, taking into account the strategic objectives of the company.*

The RC recommends to the Board the level and structure of remuneration for the Directors and key management personnel.

In setting the remuneration of the Executive Directors and key management personnel, the RC takes into consideration factors such as whether it is commensurate with their respective roles and responsibilities, benchmarking against relevant and comparable compensation in the market, linking compensation to corporate and individual performance, as well as ensuring that the Executive Directors and key management personnel are sufficiently incentivised and motivated to work in alignment with the goals of all stakeholders and successfully manage the Company and the Group for the long term.

The remuneration of the Executive Directors and key management personnel is generally structured to consist of fixed and variable compensation components. The fixed compensation consists of an annual base salary, fixed allowances (if applicable) and annual wage supplement. The variable compensation is determined based on the level of achievement of corporate objectives and individual performance conditions.

The Company has adopted the following criteria for setting of performance conditions for Executive Directors and key management personnel, the fulfilment or satisfaction of which would determine or affect their entitlements to short-term incentives such as performance bonus or long-term incentives, including the grant or vesting of share awards.

# CORPORATE GOVERNANCE STATEMENT

Cooperation and teamwork               <ol style="list-style-type: none"> <li>a. teamwork</li> <li>b. standard of conduct</li> </ol> </li> </ol>

As the remuneration terms of the Executive Directors and key management personnel are fairly balanced between the fixed and variable components (including incentive components), the Company currently does not have any contractual provisions (e.g. by way of claw-back) to reclaim incentive components of remuneration from Executive Directors and key management personnel.

The RC has reviewed and is satisfied that the Executive Directors and key management personnel have met their performance conditions for FY2022, and accordingly have recommended their compensation and remuneration packages to the Board for approval.

The Executive Directors also receive directors' fees for their duties, responsibilities and work as members of the board of directors. The Non-Executive Directors receive their remuneration in the form of directors' fees, and the level and structure of such remuneration takes into consideration factors such as the role and responsibilities of individual Directors, the effort and time spent in attending meetings of the Board and Committees and other involvement and participation in the affairs of the Company and the Group. The payment of directors' fees to the Non-Executive Directors and Executive Directors for services rendered in FY2022 is subject to the approval of shareholders at the Annual General Meeting of the Company ("**AGM**"). The RC has reviewed and assessed that the remuneration of the Non-Executive Directors and Executive Directors for FY2022 is appropriate, considering the effort, time spent and responsibilities.

The Company currently does not have any long-term incentive scheme(s) including employee share schemes such as employee share option schemes or performance share plans, but will review the feasibility of having such scheme(s), when appropriate, to better align the interests of Directors and employees with the interests of the Company and Shareholders and/or incentivize or encourage Directors and employees to provide stronger stewardship of the Company and manage the Company for the long term.

## Principle 9: Risk Management and Internal Controls

*The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the company and its shareholders.*

The Board has overall responsibility for the governance of risk, including the adoption and implementation of a system of risk management and internal controls for the Company and the Group, to safeguard assets and the interests of the Company and Shareholders.

The Group has in place a structured and systematic approach to risk management and aims to mitigate the exposures through appropriate risk management strategies and internal controls, which parameters have been reviewed and approved by the Board on an annual basis. Risk management in the Group is a continuous, iterative and integrated process which has been incorporated into various planning, approval, execution, monitoring, review and reporting systems. The Group adopts a top-down as well as bottom-up approach on risk management to ensure strategic, business, operational, financial, reporting, compliance and information technology risk exposures are identified and appropriately managed.

Operational business risks are identified, addressed and reviewed on an ongoing basis by Management. Management then reports and updates the AC on a regular basis. For material risks which include breaches in regulations or events that would potentially incur substantial damages/loss, the Board has an internal escalation/practice in place, whereby the Board is notified of such major incidents to be able to provide oversight and advise Management accordingly.

For FY2022, the Board and AC has reviewed that the Group's key risks largely lie in the area of safety and environmental practices, geographic risks, compliance with laws and regulation. They have been mitigated by way of appointment and training of safety officers, fire hazards and safety measures, insurance on key assets and risk management committee review of certain acquisitions and agreements.

The Board has established a risk management committee ("**Risk Management Committee**").

The Risk Management Committee comprises four Directors, including three Executive Directors and one Independent Director. Further details on the composition of the Risk Management Committee is set out in page 2 of this annual report.

- ii. written assurance from the CEO (or equivalent) and key management personnel who are responsible that the Group's risk management and internal control systems in place are adequate and are effective in addressing the financial, operational, compliance and information technology risks in the context of the current scope of the Group's business operations.

# CORPORATE GOVERNANCE STATEMENT

The Board and the AC are of the view that the Company's internal controls (including financial, operational, compliance and information technology controls) and risk management systems (including addressing and mitigating any sanctions-related risks) were adequate and effective for FY2022. There has been no material change in the Company's risk of being subject to any sanctions-related laws or regulations since FY2022.

The Board and the AC will be responsible for (a) monitoring the Company's risk of becoming subject to, or violating, any sanctions-related laws or regulations; and (b) ensuring timely and accurate disclosures to SGX and other relevant authorities.

The bases for the Board's view are as follows:

2. an internal audit has been done by the internal auditor of the Company and significant matters highlighted to the AC and key management personnel were appropriately and adequately addressed;
3. key management personnel regularly evaluates, monitors and reports to the AC on material risks;

There is a designated independent function to investigate whistleblowing reports and the AC is responsible for oversight and monitoring of whistleblowing. All information received will be treated as confidential. Every effort will be made to protect the complainant's identity and the complainant against detrimental or unfair treatment. Employees who raise a concern in good faith, which is shown to be unsubstantiated by subsequent investigation, will not have action taken against them. All concerns can be reported to the Chairman of the AC which will then be forwarded to the CEO (or equivalent) and AC. They will assess whether action or review is required. The whistle-blowing procedure is posted on the Company's notice boards for staff easy reference. Whistle-blowers may reach out to the AC at [whistleblower@amplefield.com](mailto:whistleblower@amplefield.com). The Company is gradually placing emphasis on sustainability and would implement appropriate policies and programmes when the opportunities arise.

The Board notes that the system of internal controls and risk management established by the Company provides reasonable, but not absolute, assurance that the Company will not be adversely affected by any event that could be reasonably foreseen as it strives to achieve its business objectives. In this regard, the Board also notes that no system of internal controls and risk management can provide absolute assurance against the occurrence of material errors, poor judgment in decision making, human error, losses, fraud or other irregularities.

# REVIEW OF OPERATIONS

The Group's revenue increased from \$3.1 million for the financial year ended 30 September 2021 ("FY2021") to \$12.2 million for the financial year ended 30 September 2022 ("FY2022"). The increase in revenue for FY2022 was due mainly to greater contribution from our property development and construction segment. The revenue from this segment increased to \$9.5 million in FY2022 (FY2021: \$0.8 million). This was mainly due to sales arising from a project that was completed during FY2022. Meanwhile, the revenue attributed to facilities provider or rental segment from the Group's investment properties in the Philippines and Malaysia was \$2.6 million in FY2022 (FY2021: \$2.4 million). The increase was due to higher occupancy level during the year.

Other income has dropped slightly from \$0.16 million in FY2021 to \$0.05 million in FY2022. The main component of other income in FY2022 was gain on disposal of property, plant and equipment of \$0.024 million (FY2021: nil) while in FY2021, the main component of other income was the write-back of non-trade payables of \$0.08 million.

In line with the higher revenue from property development and construction activities, the direct costs increased to \$12.1 million for the current financial year (FY2021: \$0.7 million). The Group's gross loss of \$2.6 million from this segment was due to weak market conditions for properties in Johor during the year that arose from difficulty for potential buyers to source for funding. Employees benefit expenses increased by 10% from \$0.8 million in FY2021 to \$0.9 million in FY2022 due mainly to inclusion of the headcount from the acquisition of a subsidiary company, Niche Properties Sdn Bhd that was completed during the second half of FY2021. Depreciation charges increased from \$0.06 million to \$0.07 million due to depreciation on additional fixed assets purchased during the financial year. Depreciation on right-of-use assets arose from the amortisation of prepaid land lease and increased from \$71,000 in FY2021 to \$80,000 due to inclusion of the depreciation relating to a subsidiary Niche Properties Sdn Bhd that was acquired during the second half of FY2021. Other expenses of \$3.3 million (FY2021: \$1.1 million) comprised mainly of development properties written down of \$2.0 million (FY2021: nil), professional fees \$0.19 million (FY2021: \$0.23 million), operating lease expenses \$0.22 million (FY2021: \$0.22 million), foreign exchange loss of \$0.18 million (FY2021: nil) as well as transport & travel costs, regulatory costs, printing and stationery, insurance and administrative costs.

Professional fees have decreased during the financial year due to lower payments to real estate agent as tenants turnover rate decreased. Finance costs have increased from \$0.02 million in FY2021 to \$0.16 million in FY2022 due mainly to interest of \$0.07 million on loans from holding company and interest of \$0.07 million on loans from a director for working capital purposes.

Impairment of goodwill amounting to \$1.16 million (FY2021: \$0.07 million) was based on the estimated recoverable amount of an individual cash-generating unit ("CGU") of the Group, Citybuilders (Vietnam) Co Ltd, after taking into consideration the specific circumstances such as expiry of underlying contract relating to the project.

The share of results of associates has changed to a gain of \$0.3 million in FY2022 (FY2021: loss of \$0.01 million) due mainly to better performance from an associate company, CAM Connectivity (Phils). Inc. The share of results during the financial year from CAM Connectivity (Phils) Inc was a gain of \$0.06 million (FY2021: loss of \$0.3 million).

In view of the above, the Group recorded a loss before tax from operations of \$5.2 million for FY2022 compared to a profit of \$0.52 million in FY2021. The property development and construction segment posted a loss before tax of \$5.3 million (FY2021: loss before tax of \$0.8 million) arising from weak market conditions for properties and the write down of development properties to net realisable value as at financial year end. Meanwhile, the rental income/facility provider segment posted a higher net profit before tax of \$1.5 million (FY2021: \$1.2 million) due to higher occupancy rates during the year.

The Group's loss after tax was \$5.3 million in FY2022 compared to a profit after tax of \$0.4 million in FY2021. Meanwhile, the loss attributable to the shareholders of the Company in FY2022 was \$5.3 million (FY2021: profits of \$0.4 million).

# INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF AMPLEFIELD LIMITED  
(Incorporated in the Republic of Singapore)

## Report on the Audit of the Financial Statements

### Opinion

We have audited the accompanying financial statements of Amplefield Limited (the "Company") and its subsidiaries (collectively the "Group") set out on pages 42 to 93, which comprise the statements of financial position (balance sheets) of the Group and of the Company as at 30 September 2022, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows of the Group for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements of the Group and the statement of financial position of the Company are properly drawn up in accordance with the provisions the Companies Act 1967 (the "Act") and Singapore Financial Reporting Standards (International) ("SFRS(I)") so as to give a true and fair view of the consolidated financial position of the Group and the financial position of the Company as at 30 September 2022 and of the consolidated financial performance, consolidated changes in equity and consolidated cash flows of the Group for the year ended on that date.

### Basis for Opinion

We conducted our audit in accordance with Singapore Standards on Auditing ("SSAs"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the *Financial Statements* section of our report. We are independent of the Group in accordance with the *Accounting and Corporate Regulatory Authority Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities* ("ACRA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled our responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

#### (1) Valuation of Investment Properties (refer to note 11 to the financial statements)

The Group owns investment properties comprising 16 units of semi-detached warehouse buildings located in the Philippines. As at 30 September 2022, this investment properties, stated at fair values of approximately \$18,451,000, were determined by management based on the independent external valuations.

We focus on this area as the valuation process involved significant judgment in determining the appropriate valuation methodologies to be used and the underlying assumptions to be applied.

We evaluated the qualifications and competence of the external valuers. We discussed with management to understand the credentials of the experts engaged and obtained an understanding of the basis of valuations. We considered other alternative valuation methods. We undertook further procedures to test the underlying assumptions against comparability and market factors, supporting lease agreements and other documents. We also considered the adequacy of the disclosures in the financial statements.

The valuers are the members of recognised professional bodies for external valuers. We found the valuation methodologies used to be in line with generally accepted market practices. We also found the disclosures in the financial statements to be adequate.

TO THE MEMBERS OF AMPLEFIELD LIMITED  
(Incorporated in the Republic of Singapore)

(Continued)

## Key Audit Matters (Continued)

### (2) Impairment Assessment of Goodwill (refer to note 13 to the financial statements)

The Group's goodwill was mainly allocated to Cash Generating Unit ("CGU") in Vietnam property construction project. Management uses assumptions in respect of future market and economic conditions such as revenue and margin of development. When performing the assessment, management concluded that there was an impairment charge on goodwill of \$1,158,000 for the financial year ended 30 September 2022 due to non-renewal of construction contract and the Group's cessation of its construction business in Vietnam.

We corroborated that there is no revenue generated in FY2022 from construction project in Vietnam. We also found the impairment charge of goodwill and disclosures in the financial statements to be adequate.

### (3) Valuation of Development Properties (refer to note 7 to the financial statements)

The Group has significant residential development properties held for sale in Malaysia. Development properties held for sale are stated at the lower of cost and net realisable values. The determination of the estimated net realisable value is highly dependent on the Group's expectations of future selling price of unsold development properties.

In estimating the future selling price of unsold development properties, the Group has taken into account real estate price trend information, local market conditions and sale strategies for the properties.

We focus on the development properties with low margins. We assessed the reasonableness of the Group's estimated future selling price for its development project, we considered recently transacted prices of property units sold and prices of comparable properties located in the vicinity of the development project, taking into account the prevailing market trends and the Group's development and selling plan for the properties. The disclosure on the Group's written down of development properties is included in note 7 to the financial statements.

## Other Information

Management is responsible for the other information. The other information comprises the "Directors' Statement" (but does not include the financial statements and our auditor's report thereon), which we obtained prior to the date of this auditor's report and other sections of the Amplefield Limited's Annual Report 2022 ("Other Sections of the Annual Report") which are expected to be made available to us after that date.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the other Sections of the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the directors and take appropriate actions in accordance with SSAs.

## Responsibilities of Management and Directors for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and SFRS(I), and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Group's financial reporting process.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

## **Auditor's Responsibilities for the Audit of the Financial Statements (Continued)**

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determined those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## **Report on Other Legal and Regulatory Requirements**

In our opinion, the accounting and other records required by the Act to be kept by the Company and by the subsidiary incorporated in Singapore of which we are the auditors have been properly kept in accordance with the provisions of the Act.

The engagement partner on the audit resulting in this independent auditor's report is Mr Raymond Chan Tuck Chee.

## 2. SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Basis of Preparation

The financial statements are presented in Singapore dollars ("S\$" or "SGD"), which is also the functional currency of the Company, and financial information presented in Singapore dollars has been rounded to the nearest thousand (\$'000), unless otherwise stated.

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (International) ("SFRS(I)").

The financial statements have been prepared on the historical cost basis, except as disclosed in the accounting policies below.

During the financial year, the Group adopted all the new and amended SFRS(I)s which are relevant to the Group and are effective for the current financial year. The adoption of these standards did not have material effect on the financial performance or position of the Group.

### 2.2 Standards Issued but Not Yet Effective

The Group has not adopted the following standards and interpretations that have been issued but not yet effective:

Description	Effective for annual periods beginning on or after
Amendments to SFRS(I) 1-1: <i>Classification of Liabilities as Current or Non-current</i>	1 January 2023
Amendments to SFRS(I) 1-1 and SFRS(I) Practice Statement 2: <i>Disclosure of Accounting Policies</i>	1 January 2023

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.3 Significant Accounting Estimates and Judgments

Estimates, assumptions concerning the future and judgments are made in the preparation of the financial statements. They affect the application of the Group's accounting policies, reported amounts of assets, liabilities, income and expenses, and disclosures made. They are assessed on an ongoing basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### (A) Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

##### (i) Depreciation of Property, Plant and Equipment

The costs of property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. Management's estimate of the useful lives of these property, plant and equipment to be within 3 to 10 years. Changes in the expected usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised. The carrying amount of the Group's property, plant and equipment as at 30 September 2022 was \$376,000 (2021: \$482,000).

##### (ii) Income Taxes

The Group has exposure to income taxes in numerous jurisdictions. Significant judgment is required in determining the capital allowances and deductibility of certain expenses during the estimation of the provision for income tax. There are also claims for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. When the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made. The carrying amounts of the Group's current tax liabilities and deferred tax liabilities are disclosed in the statements of financial position.

##### (iii) Expected Credit Losses on Receivables

Expected credit losses ("ECLs") are probability-weighted estimates of credit losses over the life of a financial instrument. In estimating ECLs to determine the probability of default of its debtors, the Group has used historical information, such as past credit loss experience. Where applicable, historical data are adjusted to reflect the effects of current conditions as well as management's assessment of future economic conditions based on observable market information, which involved significant estimates and judgement.

Based on the management's assessment, there are no significant ECLs on the Group's receivables as at date of balance sheet.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.3 Significant Accounting Estimates and Judgments (continued)

#### (A) Key sources of estimation uncertainty (continued)

##### (iv) Revenue Recognition

The Group recognises contract revenue on the percentage of completion basis. The percentage of completion is determined based on resident engineer's certification of the physical proportion of contract work completed.

Significant judgment is required in determining the proportion of physical contract work completed, the estimated total contract revenue and contract costs, as well as the recoverability of the contract costs. Total contract revenue also includes an estimation of the variation works that are recoverable from the customers. In making its judgment, the management relies on past experience and the work of specialists.

##### (v) Impairment of Goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash generating units to which goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of the Group's goodwill is disclosed in note 13 to the financial statements.

#### (B) Critical judgments made in applying accounting policies

In the process of applying the Group's accounting policies, management has made certain judgments, apart from those involving estimations, which have significant effect on the amounts recognised in the financial statements.

##### (i) Impairment on Non-Financial Assets

The carrying amounts of the Group's non-financial assets subject to impairment are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount is estimated based on the higher of the value in use and the asset's fair value less cost of disposal. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the continuing use of the assets and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

##### (ii) Impairment on Investments in Subsidiaries and Associates

Determining whether investments in subsidiaries and associates are impaired requires an estimation of the value-in-use of that investment. The value-in-use calculation requires the Group to estimate the future cash flows expected from the cash-generating units and an appropriate discount rate in order to calculate the present value of the future cash flows. Management has evaluated the recoverability of the investment based on such estimates.

### 2.3 Significant Accounting Estimates and Judgments (continued)

#### (B) *Critical judgments made in applying accounting policies (continued)*

##### (iii) Sale of Residential Development Properties

For the sale of residential development properties, the Group is required to assess each of its contracts with customers to determine whether performance obligations are satisfied over time or at a point in time in order to determine the appropriate method for recognising revenue. In making the assessment, the Group considered the terms of the contracts entered into with customers and the provisions of relevant laws and regulations applicable to the contracts. The assessment of whether the Group has an enforceable right to payment for performance completed to date involves judgment made in determining the enforceability of the right to payment under the legal environment of the jurisdictions where the contracts are subject to.

### 2.4 Investments in Subsidiaries

#### (i) Subsidiaries and Basis of Consolidation

Investments in subsidiaries are held on a long-term basis and stated in the Company's balance sheet at cost less impairment loss, if any.

Subsidiaries are entities over which the Group has control. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date on which control ceases.

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries made up to 30 September 2022. The financial statements of the subsidiaries are prepared for the same reporting date as the parent company. Consistent accounting policies are applied for like transactions and events in similar circumstances.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions are eliminated in full.

Non-controlling interests are that part of the net results of operations and net assets of a subsidiary attributable to the interests which are not owned directly or indirectly by the equity holders of the Company. They are shown separately in the consolidated statement of comprehensive income, consolidated statement of changes in equity and balance sheet. Total comprehensive income is attributed to the non-controlling interests based on their respective interests in a subsidiary, even if this results in the non-controlling interests having a deficit balance.

#### (ii) Acquisition

The acquisition method of accounting is used to account for business combinations by the Group. The consideration transferred for the acquisition of a subsidiary or business comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary.

Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree at the date of acquisition either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

# NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2022

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.4 Investments in Subsidiaries (continued)

#### (ii) Acquisition (continued)

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the net identifiable assets acquired is recorded as goodwill.

Any excess of the Group's interests in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of business combination is recognised in profit or loss on the date of acquisition.

#### (iii) Disposals

When a change in the Group ownership interest in a subsidiary result in a loss of control over the subsidiary, the assets and liabilities of the subsidiary including any goodwill are derecognised. Amounts previously recognised in other comprehensive income in respect of that entity are also reclassified to profit or loss or transferred directly to retained earnings if required by a specific Standard.

Any retained equity interest in the entity is remeasured at fair value. The difference between the carrying amount of the retained interest at the date when control is lost and its fair value is recognised in profit or loss.

### 2.5 Goodwill

Goodwill, defined as the excess of the consideration paid over the acquirer's interest in the fair value of the identifiable net assets acquired as at the date of acquisition, is recognised at cost less any accumulated impairment losses. Where the consideration is lower than the fair value of the identifiable net assets acquired, the difference is recognised immediately in profit or loss.

Goodwill is tested for impairment annually, as well as when there is any indication that the goodwill may be impaired. Impairment charge of goodwill is not reversed in a subsequent period.

### 2.6 Transactions with Non-Controlling Interests

Non-controlling interests represent the equity in subsidiaries not attributable, directly or indirectly, to equity holders of the Company, and are presented separately in the consolidated statement of comprehensive income and within equity in the consolidated balance sheet, separately from equity attributable to equity holders of the Company.

Changes in the Company's ownership interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to equity holders of the Company.

### 2.7 Development Properties

Development properties are properties acquired or being constructed for sale in the ordinary course of business, rather than to be held for the Group's own use, rental or capital appreciation.

Development properties are held as inventories and are measured at the lower of cost and net realisable value.

Net realisable value of development properties is the estimated selling price in the ordinary course of the business, based on market prices at the end of the reporting date, less the estimated costs of completion and the estimated costs necessary to make the sale.

# NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2022

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.7 Development Properties (continued)

Non-refundable commissions paid to sales or marketing agents on the sale of real estate units are capitalised and amortised consistently with the pattern of revenue recognised for the related contract to profit or loss. Show flats expenses are expensed when incurred.

The costs of development properties recognised in profit or loss on disposal are determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on the relative size of the property sold.

### 2.8 Financial Assets

Financial assets are recognised on the balance sheet when the Group becomes a contractual party to the contractual provisions of the financial instrument.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Financial assets are classified into the following measurement categories:

- Amortised cost;
- Fair value through other comprehensive income ("FVOCI"); and
- Fair value through profit or loss ("FVPL").

The basis of classification depends on the Group's business model and the contractual cash flow characteristics of the financial assets.

#### *At initial recognition*

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial assets. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. Trade receivables that do not have a significant financing component are measured at their transaction price at initial recognition.

#### *At subsequent measurement*

There are three prescribed subsequent measurement categories - at amortised cost, FVOCI and FVPL, depending on the Group's business model in managing the financial assets and the cash flow characteristics of the assets.

The Group's financial assets, comprising mainly trade and other receivables, amounts due from associates, and cash and cash equivalents, are measured at amortised cost subsequent to initial recognition, as these represent contractual cash flows which represent solely payments of principal and interest. A gain or loss on a financial asset that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets are recognised using the effective interest rate method.

### 2.9 Cash and Cash Equivalents

Cash and cash equivalents comprise cash in hand, cash at bank and bank deposits which are subject to insignificant risks of changes in value. Cash equivalents are stated at amounts at which they are convertible into cash.

# NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2022

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.10 Receivables

Receivables that do not have a significant financing component are measured at their transaction price at initial recognition, and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses, as explained in note 2.15 to the financial statements. Receivables with short duration are not discounted.

### 2.11 Investments in Associates

An associate is an entity over which the Group has the power to participate in the financial and operating policy decisions of the investee but does not have control or joint control of those policies.

The Group accounts for its investments in associates using the equity method from the date on which it becomes an associate.

On acquisition of the investment, any excess of the cost of the investment over the Group's share of the net fair value of the investee's identifiable assets and liabilities is accounted for as goodwill and is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the investee's identifiable assets and liabilities over the cost of the investment is included as income in the determination of the Group's share of the associate's profit or loss in the period in which the investment is acquired.

Under the equity method, investments in associates are carried in the balance sheet at cost plus post-acquisition changes in the Group's share of net assets of the associates. The profit or loss reflects the share of results of the operations of the associates.

Distributions received from the associate reduce the carrying amount of the investment. Where there has been a change recognised in other comprehensive income by the associate, the Group recognises its share of such changes in other comprehensive income. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

When the Group's share of losses in an associate equal or exceed its interest in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group's investments in associates. The Group determines at the end of each reporting period whether there is any objective evidence that the investments in the associates are impaired. If this is the case, the Group calculates the amount of impairment as the excess of the carrying amount of the investments over the recoverable amount of the associates, and recognises the amount in profit or loss.

The financial statements of the associates are prepared as of the same reporting date as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

In the Company's separate financial statements, investments in associates are accounted for at cost less impairment losses, if any.

Details of the associates set out in note 8 to the financial statements.

# NOTES TO THE FINANCIAL STATEMENTS

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.12 Property, Plant and Equipment

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Property, plant and equipment are stated at cost less accumulated depreciation and impairment loss, if any.

Depreciation is calculated on the straight-line basis so as to write off the cost, less the residual value, of the assets over their estimated useful lives. The estimated useful lives are as follows:

Motor vehicles	5 years to 8 years
Office equipment	3 years to 10 years
Computer and software	10 years
Furniture and fittings	3 years to 10 years
Renovations	10 years

Fully depreciated assets are retained in the financial statements until they are no longer in use.

The residual values, useful lives and depreciation methods of property, plant and equipment are reviewed and adjusted as appropriate, at each financial year-end.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item, and shall be included in profit or loss when the item is derecognised.

### 2.13 Investment Properties

Investment properties are held for long-term rental yields and/or for capital appreciation. Investment properties are recognised initially at cost and subsequently carried at fair value. Change in fair value is recognised in profit or loss.

Investment properties are subject to renovations or improvements at regular intervals. The cost of major renovations and improvements is capitalised as addition and the carrying amounts of the replaced components are written off to profit or loss. The cost of maintenance, repairs and minor improvement is charged to profit or loss when incurred.

On disposal of an investment property, the difference between the disposal proceeds and the carrying amount is recognised in profit or loss.

### 2.14 Impairment of Non-Financial Assets

The carrying amounts of the Group's non-financial assets subject to impairment are reviewed at each balance sheet date to determine whether there is any indication of impairment. If such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's fair value less cost of disposal and its value in use. The value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life.

# NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2022

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.14 Impairment of Non-Financial Assets (continued)

An impairment loss on a non-revalued asset is recognised in profit or loss. An impairment loss on a revalued asset is recognised in other comprehensive income to the extent that the impairment loss does not exceed the amount in the revaluation surplus for that same asset. An impairment loss (except for impairment loss on goodwill) is reversed if there has been a change in the estimates used to determine the recoverable amount or when there is an indication that the impairment loss recognised for the asset no longer exists or decreases. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised.

### 2.15 Impairment of Financial Assets

The Group assesses on forward looking basis the expected credit losses associated with its debt instruments carried at amortised cost, and recognises a loss allowance accordingly.

At each reporting date, the debt instruments are assessed to determine whether there is significant increase in credit risk on the debt instruments since initial recognition. If there is a significant increase in credit risk since initial recognition, lifetime expected credit losses will be calculated and recognised in the loss allowance. If credit risk on the debt instrument has not increased significantly since initial recognition, the loss allowance is measured based on 12-month expected credit losses. Adjustments to the loss allowance are recognised in profit or loss as an impairment gain or loss.

For receivables, the Group applies the simplified approach permitted by SFRS(I) 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

### 2.16 Financial Liabilities

Financial liabilities are recognised on the balance sheet when the Group becomes a party to the contractual provisions of the financial instrument.

Financial liabilities are recognised initially at fair value, plus, in the case of financial liabilities other than derivatives, directly attributable transaction costs.

Subsequent to initial recognition, all financial liabilities are measured at amortised cost using the effective interest method, except for derivatives, which are measured at fair value. Financial liabilities with a short duration are not discounted.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. For financial liabilities other than derivatives, gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process. Any gains or losses arising from changes in fair value of derivatives are recognised in profit or loss. Net gains or losses on derivatives include exchange differences.

Interest-bearing liabilities are recognised initially at fair value of proceeds received less attributable transaction costs, if any. Subsequent to initial recognition, interest-bearing liabilities are stated at amortised cost, which is the initial fair value less any principal repayments. Any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

### 2.17 Share Capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issuance of new ordinary shares are deducted against the share capital account.

# NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2022

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.18 Treasury Shares

The Group's own equity instruments, which are reacquired (treasury shares) are recognised at cost and deducted from equity. No gain or loss is recognised in profit or loss on the purchase, sales, issue or cancellation of the Group's own equity instruments. Any difference between carrying amount of treasury shares and the consideration received, if reissued, is recognised directly in equity. Voting rights related to treasury shares are nullified for the Group and no dividends are allocated to them respectively.

### 2.19 Foreign Currency Transactions and Translation

#### (i) Transactions in Foreign Currencies

Foreign currency transactions are recorded, on initial recognition, in the functional currency of the respective companies in the Group by applying to the foreign currency amounts the rates of exchange prevailing on the transaction dates. Recorded monetary items that are denominated in foreign currencies as at balance sheet date are translated at the rates ruling on that date. Gain or loss on foreign currency translation is included in profit or loss. Non-monetary assets and liabilities that are measured in historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary assets and liabilities measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

#### (ii) Foreign Operations

For consolidation purposes, the assets and liabilities of the foreign operations have been translated into Singapore dollars at rates of exchange ruling at the balance sheet date, and income and expenses are translated at the average exchange rates for the year. All resulting translation exchange differences are recognised in other comprehensive income and accumulated in a separate component of equity as translation reserve. When a foreign operation is disposed of, in part or in full, the relevant amount in the foreign exchange translation reserve is reclassified from equity to profit or loss and recognised as a component of the gain or loss on disposal.

#### (iii) Net Investment in Foreign Operations

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in the Company's profit or loss. Such exchange differences are reclassified to equity in the consolidated financial statements, and are presented within equity in the currency translation reserve. When the foreign operation is disposed of, the cumulative amount in the currency translation reserve is transferred to profit or loss on disposal.

### 2.20 Revenue Recognition

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Revenue is recognised when the Group satisfies a performance obligation by transferring a promised good or service to the customer, to which is when the customer obtains control of the good or service. A performance obligation may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied performance obligation.

# NOTES TO THE FINANCIAL STATEMENTS

30 SEPTEMBER 2022

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.20 Revenue Recognition (continued)

(i) Contract Revenue

Progress billings to the customers are typically triggered upon certification by external specialists. A contract asset is recognised when the Group has performed under the contract but has not yet billed the customer. Conversely, a contract liability is recognised when the Group has not yet performed under the contract but has received advanced payments from the customer. Contract assets are transferred to receivables when the rights to consideration become unconditional. Contract liabilities are recognised as revenue as the Group performs under the contract.

(ii) Rental Income

Rental income from operating leases is recognised on a straight-line basis over the lease term.

(iii) Interest Income

Interest income is recognised on a time-proportion basis, using the effective interest method, unless collectability is in doubt.

(iv) Sale of Development Properties

The Group develops and sells residential properties before completion of construction of the properties.

Revenue is recognised when control over the property has been transferred to the customer, either over time or at a point in time, depending on the contractual terms and the practices in the legal jurisdictions.

For development properties whereby the Group is restricted contractually from directing the properties for another use as they are being developed and has an enforceable right to payment for performance completed to date, revenue is recognised over time, based on the construction and other costs incurred to date as a proportion of the estimated total construction and other costs to be incurred.

For development properties whereby the Group does not have an enforceable right to payment for performance completed to date, revenue is recognised when the customer obtains control of the asset.

Progress billings to the customers are based on a payment schedule in the contract and are typically triggered upon achievement of specified construction milestones. A contract asset is recognised when the Group has performed under the contract but has not yet billed the customer. Conversely, a contract liability is recognised when the Group has not yet performed under the contract but has received advanced payments from the customer.

Contract assets are transferred to receivables when the rights to consideration become unconditional. Contract liabilities are recognised as revenue as the Group performs under the contract.

Incremental costs of obtaining a contract are capitalised if these costs are recoverable. Costs to fulfil a contract are capitalised if the costs relate directly to the contract, generate or enhance resources used in satisfying the contract and are expected to be recovered. Other contract costs are expensed as incurred.

Capitalised contract costs are subsequently amortised on a systematic basis as the Group recognises the related revenue. An impairment loss is recognised in profit or loss to the extent that the carrying amount of the capitalised contract costs exceeds the remaining amount of consideration that the Group expects to receive in exchange for the goods or services to which the contract costs relates less the costs that relate directly to providing the goods and that have not been recognised as expenses.

# NOTES TO THE FINANCIAL STATEMENTS

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.21 Employee Benefits

(i) Defined Contribution Plans

As required by the law, the Group makes contributions to the state provident funds of the respective countries in which the Group operates. Such contributions are recognised as compensation expenses in the same period as the employment that gave rise to the contributions.

(ii) Short-term Compensated Absences

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for employee entitlements to annual leave as a result of services rendered by employees up to the balance sheet date.

### 2.22 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As Lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liability representing the obligations to make lease payments and right-of-use asset representing the right to use the underlying leased asset.

*Right-of-use asset*

The Group recognises right-of-use asset at the commencement date of the lease (i.e. the date the underlying asset is available for use). Right-of-use asset is measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liability. The cost of right-of-use asset includes the amount of lease liability recognised, initial direct cost incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use asset is depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset. The right-of-use asset is also subject to impairment. The accounting policy for impairment is disclosed note 2.14 to the financial statements.

*Lease liability*

At the commencement date of the lease, the Group recognises lease liability measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.22 Leases (continued)

#### (i) As Lessee (continued)

##### *Lease liability (continued)*

In calculating the present value of the lease payments, the Group uses the implicit rate in the lease, if the rate can be readily determined. If the rate cannot be readily determined, the Group used incremental borrowing rate at the lease commencement date. After the commencement date, the amount of lease liability is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g. changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

##### *Short-term leases and lease of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and lease of low-value assets are recognised as expense on a straight-line basis over the lease term.

#### (ii) As Lessor

Leases whereby the Group effectively retains substantially all the risk and benefits of ownership of the leased item are classified as operating leases. Assets leased out under operating leases are included in investment property. Income arising from such operating lease is recognised on a straight-line basis over the lease term.

### 2.23 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, being assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets. Borrowing costs are capitalised until the assets are ready for their intended use or sale.

All other borrowing costs are recognised as an expense in the period in which they are incurred.

### 2.24 Income Taxes

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised outside profit or loss (either in other comprehensive income or directly to equity), in which case, it is recognised in other comprehensive income or directly to equity accordingly.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred income tax is provided using the balance sheet liability method, on all temporary differences at the balance sheet date arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Currently enacted tax rates are used in the determination of deferred income tax.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

Deferred income tax is provided on all taxable temporary differences arising on investments in subsidiaries and associates, except where the timing of the reversal of the temporary difference can be controlled, and it is probable that the temporary difference will not reverse in the foreseeable future.

## 2. SIGNIFICANT ACCOUNTING POLICIES (continued)

### 2.24 Income Taxes (continued)

Deferred tax is charged or credited to other comprehensive income or directly in equity if the tax relates to items that are credited or charged, in the same or a different period, to other comprehensive income or directly to equity.

### 2.25 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made.

### 2.26 Operating Segment

For management purposes, operating segments are organised based on their products and services which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers are directly accountable to the executive director who regularly reviews the segment results in order to allocate resources to the segments and to assess segment performance.

<b>Carrying amount</b>		
Balance at end of the year	<u>118</u>	<u>1,282</u>

Goodwill arose from acquisition by the Group in Citybuilders (Vietnam) Co., Ltd. and Niche Properties Sdn. Bhd..

For FY2021, carrying amount of goodwill amounting \$1.158 million was attributable to acquisition of Citybuilders (Vietnam) Co., Ltd.. Goodwill acquired through business combination was related to the construction and related services segment, which was an individual Cash-Generating Unit ("CGU") of the Group. During the financial year, an impairment charge of \$1.158 million was recognised in respect of the cessation of property construction project in Vietnam.

For FY2021, the recoverable amount of the CGU including goodwill has been determined based on value-in-use calculations using management-approved discounted cash flow projections covering a period of 5 years and projection to terminal year. The key assumptions for the value-in-use calculations are those regarding the discount rates, growth rates and expected changes to upward prices revision and direct costs during the financial year as stated below:

	<b>2022</b>	<b>2021</b>
	<b>%</b>	<b>%</b>
Revenue growth rate	-	3.00
Terminal growth rate	-	-
Discount rate	-	10.00

Management estimates the discount rate using post-tax rates that reflect current market assessment of the time value of money and the risks specific to the CGU. The growth rate is based on management's estimates and expectations from historical trends. Changes in upward prices revision and direct costs are based on past practices and expectation of future changes in market.

The calculation of value-in-use is also determined based on the following assumptions:

- Timing of the progress billing for the completed works according to the timeframe of the project
- Availability of the funds to undertake the construction works

Timing of the progress billing for the completed works is based on the expected stages of completion of the project as set out in the construction agreement between the Group and the vendors.

Availability of funds to undertake the construction works is based on the expected funding that will be generated through internal and external financing during the duration of the project.

There remains a risk that, due to unforeseen circumstances in the economy in which the CGU operates or global economy conditions, the project may not be completed or funds may not be available to the Group.

An impairment charge of \$1,158,000 (2021: \$74,000) is included in the consolidated statement of comprehensive income for the year ended 30 September 2022 after taking into consideration the cessation of the Group's construction project in Vietnam.

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds.

The Group's funding requirements and liquidity risks are managed with the objective of meeting its business obligations in a timely manner. The Group through the appropriate management in each operating business unit measures and manages its cash flow commitments on a regular basis. Among other things, this also involves monitoring the concentration of funding maturing at any point in time and from any particular source.

The table below summarises the maturity profile of the Group's and the Company's financial liabilities at the balance sheet date based on contractual undiscounted payments:

## 34. FINANCIAL RISK MANAGEMENT (continued)

### 34.2 Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will have an adverse financial effect on the Group's results and the fair value of its financial instruments. The Group's exposure to changes in interest rates relates primarily to interest-bearing financial liabilities. Interest rate risk is managed by the Group on an ongoing basis with the primary objective of limiting the extent to which net interest expense could be affected by an adverse movement in interest rates.

Information relating to the Group's interest rate exposures are disclosed in the notes 15, 17 and 18 to the financial statements respectively.

At the balance sheet date, the interest rate profile of the interest-bearing financial instruments are as follows:

	Group		Company	
	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000
Fixed rate instruments				
Other payables	(1,707)	(258)	(258)	(258)
Bank borrowings	(6,596)	-	-	-
Lease liabilities	(68)	(102)	-	-
	<u>(8,371)</u>	<u>(360)</u>	<u>(258)</u>	<u>(258)</u>
Variable rate instruments				
Bank borrowings	<u>(63)</u>	<u>(3,606)</u>	<u>-</u>	<u>-</u>

### Sensitivity analysis

For variable rate financial instruments, an increase of 100 basis points (bp) in interest rate at the reporting date would decrease profit by the amounts shown below. A decrease of 100 bp in interest rate would have an equal but opposite effect. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

### 34.3 Foreign Exchange Risk

The Group's equity investment in and intercompany loans to subsidiaries and associates in Malaysia and the Philippines currently account for most of its foreign exchange risk. Unfortunately under the present circumstance, the Group is unable to match funds to reduce this structural foreign currency exposure.

The Group's investments in overseas subsidiaries and associates, which are held for long-term investment purpose, are exposed to currency translation risk. The differences arising from such translation are recorded under the foreign currency translation reserve. These translation differences are reviewed and monitored on a regular basis.

The Group does not enter into any derivative transactions to hedge its foreign exchange risk.

The significant foreign currency amounts held by the Group entities other than their respective functional currencies are as follows:

## 34. FINANCIAL RISK MANAGEMENT (continued)

### 34.4 Credit Risk

Credit risk is the potential risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group.

#### (i) Risk management

The Group's exposure to credit risk arises primarily from amounts due from associates, trade and other receivables. For other financial assets, including cash and cash equivalents, the Group minimises credit risk by dealing with high credit rating counterparties.

The Group, through the appropriate management in each operating business unit, controls this risk through the process of initial approval and granting of credit, subsequent monitoring of creditworthiness and the active management of credit exposures.

The credit risk concentration profile of the Group's and the Company's trade receivables as at the balance sheet date is as follows:-

	Group		Company	
	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000
By geographical areas				
Malaysia	1,186	2,012	-	-
Philippines	25	24	-	-
Vietnam	2,471	2,549	-	-
	<u>3,682</u>	<u>4,585</u>	<u>-</u>	<u>-</u>

In FY2022, the Group derived nil (2021: 24.61%) of its total revenue from Vietnam. At the balance sheet date, 67.11% (2021: 55.59%) of total outstanding trade receivables was due from external party (2021: related party).

#### (ii) Recognition of expected credit losses ("ECLs")

The Group's financial assets that are subject to credit losses where the expected credit loss model has been applied are trade receivables.

The Group assess on forward looking basis the expected credit losses on its trade receivables, and recognises a loss allowance in accordance with SFRS(I) 9.

Based on the Group's historical collection trend, all outstanding trade receivables are generally settled within the credit term of 30 days and there is a low risk of default. Trade receivables are assessed on a collective basis to determine whether there are changes in credit risk. Lifetime expected credit losses are recognised for specific receivables for which credit risk is deemed to have increase significantly.

## 35. CAPITAL MANAGEMENT

The Group's objectives when managing capital are:

- (a) To safeguard the Group's ability to continue as a going concern;
- (b) To support the Group's stability and growth; and
- (c) To provide capital for the purpose of strengthening the Group's risk management capability.

The Group actively and regularly reviews and manages its capital structure to ensure optimal capital structure and shareholder returns, taking into consideration the future capital requirements of the Group and capital efficiency, prevailing and projected strategic investment opportunities. The Group currently does not adopt any formal dividend policy.

The directors also monitor the return on capital employed. The return on capital employed in 2022 was loss of 9.16% (2021: profit of 0.65%). The return on capital employed is calculated by dividing profit after tax over total equity of the Group.

There were no changes to the Group's approach to capital management since the previous financial year.

The Group is in compliance with all externally imposed capital requirements for the financial years ended 30 September 2022 and 2021.

## 36. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

### 36.1 Fair Value Hierarchy

The Group categories fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date,
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 - Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

### 36.2 Assets and Liabilities Measured at Fair Value

The following table shows an analysis of each class of assets and liabilities measured at fair value by the end of the reporting period:

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
<b>Group</b>				
<b><u>2022</u></b>				
Investment properties	-	-	<b>25,496</b>	25,496
<b><u>2021</u></b>

Movements in Level 3 assets measured at fair value are as disclosed in note 11 to financial statements.

# NOTES TO THE FINANCIAL STATEMENTS

## 36. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES (continued)

### 36.2 Assets and Liabilities Measured at Fair Value (continued)

The determination of the fair value of investment properties is performed on an annual basis by management based on the management's assessment by reference to available market information indices for similar properties in the same vicinity and the independent external valuations.

The Board of Directors oversees the Group's financial reporting valuation process and is responsible for setting and documenting the Group's valuation policies and procedures.

### 36.3 Fair value of financial instruments that are not carried at fair value

The carrying amounts of cash and cash equivalents, receivables and payables classified as current assets and liabilities approximate their fair value due to their short-term nature.

The carrying amounts of bank borrowings are reasonable approximation of their fair values as these bear interest at rates approximating market rates as at balance sheet date.

The fair value of lease liabilities is estimated using the expected future payments discounted at effective interest rate as disclosed in note 18 to the financial statements.

It is not practicable to determine with sufficient reliability the fair values of other receivables, other payables and amounts owing by/payable to related parties which are classified as non-current assets/liabilities. These amounts are not repayable within the short-term but do not have agreed specified period of repayment. Accordingly, these amounts are carried at original cost.

## 37. FINANCIAL INSTRUMENTS BY CATEGORY

The aggregate carrying amounts of financial instruments classified as financial assets at amortised cost and financial liabilities at amortised cost are as follows:

	Group		Company	
	2022 \$'000	2021 \$'000	2022 \$'000	2021 \$'000
Financial assets at amortised cost	9,649	9,299	402	554
Financial liabilities at amortised cost	20,192	16,682	1,785	1,715

## 38. IMPACT OF COVID-19

The COVID-19 pandemic has affected almost all countries of the world, and resulted in border closures, production stoppages, workplace closures, movement controls and other measures imposed by the various governments. The Group's significant operations are in the Philippines and Malaysia, all of which were affected by the spread of COVID-19 from 2020 to 2021. In 2022, the pandemic situation has improved.

Set out below is the impact of COVID-19 on the Group's financial performance reflected in this set of financial statements for the year ended 30 September 2022:

- (i) The Group has assessed that the going concern basis of preparation for this set of financial statements remains appropriate.
- (ii) In 2022, incidents of border closures, production stoppages and workplace closures have reduced and did not result in long periods where the Group's operations were suspended to adhere to the respective governments' movement control measures.
- (iii) The Group has considered the market conditions (including the impact of COVID-19) as at the balance sheet date, in making estimates and judgements on the recoverability of assets as at 30 September 2022. The significant estimates and judgement applied on impairment of goodwill are disclosed in note 13 to the financial statements.

As the global economy and sentiments may remain challenging due to potentially resurgent COVID-19 and supply chain disruptions, the Group cannot reasonably ascertain the full extent of the probable impact arising therefrom on its operating and financial performance for the financial year ending 30 September 2023. If the situation persists beyond management's current expectations, the Group's assets may be subject to further write downs in the subsequent financial periods. However, the Group will remain vigilant in the monitoring its liquidity position while at the same time continue to look for opportunities to grow its businesses in the region.

## 39. AUTHORISATION OF FINANCIAL STATEMENTS

The balance sheet of the Company and the consolidated financial statements of Amplefield Limited and its subsidiaries for the year ended 30 September 2022 were authorised for issue in accordance with a resolution of the directors dated 28 December 2022.

To: The Shareholders of Amplefield Limited (the "Company")

Dear Sir/Madam

## (1) THE PROPOSED RENEWAL OF THE SHARE BUYBACK MANDATE OF THE COMPANY

### 1. BACKGROUND

#### 1.1 We refer to:

- (a) the Notice of the Annual General Meeting ("**AGM**") of the Company dated 30 December 2022 (the "**Notice**"), accompanying the annual report for the financial year ended 30 September 2022, convening the AGM of the Company to be held on 17 January 2023 by electronic means (the "**2023 AGM**");
- (b) Ordinary Resolution 8 relating to the proposed renewal of the general mandate to authorise the Directors to exercise all the powers of the Company to purchase or otherwise acquire its issued ordinary shares ("**Shares**") upon and subject to the terms of such mandate (the "**Share Buyback Mandate**"), as proposed in the Notice; and

1.2 The purpose of this Appendix ("**Appendix**") is to provide shareholders of the Company ("**Shareholders**") with information relating to Ordinary Resolution 8 proposed in the Notice.

## 2. THE RENEWAL OF THE SHARE BUYBACK MANDATE

### 2.1 Background

Any purchase or acquisition of Shares by the Company would have to be made in accordance with, and in the manner prescribed by its Constitution, the Companies Act 1967 (the "**Companies Act**"), the Listing Manual Section B: Rules of the Catalist of the Singapore Exchange Securities Trading Limited ("**SGX-ST**") (the "**Catalist Rules**") and such other laws and regulations as may, for the time being, be applicable. Regulation 6 of the Company's Constitution expressly permits the Company to, subject to and in accordance with the Companies Act, purchase or otherwise acquire its issued Shares on such terms and subject to such conditions as the Company may prescribe in general meeting. The Company is also required to obtain approval of its Shareholders at a general meeting if it wishes to purchase or acquire its own Shares.

# APPENDIX

## 30 DECEMBER 2022

At an Annual General Meeting of the Company held on 26 January 2022, the Shareholders had, inter alia, renewed the Share Buyback Mandate to allow the Company to purchase or acquire its issued Shares at any time during the duration and on the terms of the Share Buyback Mandate. This Share Buyback Mandate will be expiring in the upcoming AGM.

Accordingly, it is proposed that the Share Buyback Mandate be renewed at the AGM, to take effect until the next AGM of the Company.

If approved by Shareholders at the AGM, the authority conferred by the Share Buyback Mandate will continue in force until the next AGM (whereupon it will lapse, unless renewed at such meeting), or the date on which the authority conferred by the Share Buyback Mandate is revoked or varied by the Company at general meeting (if so varied or revoked prior to the next AGM), or the date on which purchases and acquisitions of Shares pursuant to the Share Buyback Mandate are carried out to the full extent mandated (if so varied or revoked prior to the next AGM), whichever is earlier (the "Relevant Period").

### 2.2 Rationale for the Share Buyback Mandate

The approval of the renewal of the Share Buyback Mandate will give the Company flexibility to undertake purchases or acquisitions of its own Shares subject to the terms and limits described in Paragraph 2.3 of this Appendix.

The Directors constantly seek to increase Shareholders' value and to improve, inter alia, the return on equity of the Group. A share buyback at the appropriate price level is one of the ways through which the return on equity of the Group may be enhanced.

The Share Buyback Mandate would also provide the Company with the flexibility to purchase or acquire Shares if and when circumstances permit, during the period when the Share Buyback Mandate is in force. Shares purchased pursuant to the Share Buyback Mandate will either be cancelled or held as treasury shares as may be determined by the Directors. This will provide the Directors with greater flexibility over the Company's share capital structure, inter alia, with a view to enhancing the earnings and/or net tangible asset value per Share or to maintain a pool of Shares to be deployed for future purposes as deemed appropriate by the Directors.

It is currently contemplated by the Company that the Shares purchased pursuant to the Share Buyback Mandate will be held as treasury shares which may be used as (i) consideration for the acquisition of shares in or assets of another company or assets of a person, (ii) to be sold in the event of future share placements and/or (iii) to be transferred for the purposes of or pursuant to an employee's share scheme. The Directors further believe that Share buybacks by the Company will help to mitigate short-term share price volatility or trading trends which, in the reasonable opinion of the Company, are not otherwise caused by general market factors or sentiments and/or the fundamentals of the Company and offset the effects of short-term speculation (as and when they may occur), and bolster Shareholders' confidence.

If and when circumstances permit, the Directors will decide whether to effect the Share buybacks via Market Purchases (as defined in Paragraph 2.3.3(a) below) or Off-Market Purchases (as defined in Paragraph 2.3.3(b) below), after taking into account, inter alia, the amount of surplus cash available, the prevailing market conditions and the most cost-effective and efficient approach.

### 2.3 Terms of the Mandate

The authority and limitations placed on purchases and acquisitions of Shares by the Company under the Share Buyback Mandate are summarised below:

#### 2.3.1 Maximum number of Shares

Only Shares which are issued and fully paid-up may be purchased or acquired by the Company.

The total number of Shares that may be purchased or acquired by the Company pursuant to the Share Buyback Mandate is limited to that number of Shares representing not more than ten percent (10%) of the issued ordinary share capital of the Company as at the date of the resolution passed by Shareholders approving the renewal of the Share Buyback Mandate (the "**Approval Date**"), unless the Company has, at any time during the Relevant Period, effected a reduction of the share capital of the Company in accordance with the applicable provisions of the Companies Act, in which event the issued ordinary share capital of the Company shall be taken to be the amount of the issued ordinary share capital of the Company as altered. Treasury shares and subsidiary holdings will be disregarded for the purposes of computing the ten percent (10%) limit.

# APPENDIX

## 30 DECEMBER 2022

For illustrative purposes only, on the basis 898,117,536 Shares in issue as at 14 December 2022, being the latest practicable date prior to the dispatch of this Appendix (the “**Latest Practicable Date**”) and assuming no further Shares are issued and disregarding treasury shares and subsidiary holdings on or prior to the Approval Date, the purchase by the Company of up to the maximum limit of ten percent (10%) of its issued Shares will result in the purchase of approximately 89,811,753 Shares.

### 2.3.2 Duration of Authority

Purchases or acquisitions of Shares may be made, at any time and from time to time, on and from the Approval Date, up to the earliest of:

- (a) the date on which the next AGM is held or required by law to be held, whichever is the earlier;
- (b) the date on which the purchases or acquisition of Shares pursuant to the Share Buyback Mandate are carried out to the full extent authorised under the Share Buyback Mandate; or
- (c) the effective date on which the authority conferred in the Share Buyback Mandate is varied (as to the duration of the Share Buyback Mandate) or revoked by the Shareholders in general meeting.

The Share Buyback Mandate may be renewed on an annual basis at a general meeting of the Company.

### 2.3.3 Manner of purchase or acquisition

Purchases or acquisitions of Shares may be made by way of:

- (a) on-market purchases (“**Market Purchase**”), transacted on the SGX-ST through the ready market, and which may be transacted through one or more duly licensed stockbrokers appointed by the Company for the purpose; and/or
- (b) off-market purchases (“**Off-Market Purchase**”), otherwise than on a securities exchange, in accordance with an equal access scheme(s) as may be determined or formulated by the Directors as they may consider fit, which scheme(s) shall satisfy all the conditions prescribed by the Share Buyback Mandate, the Constitution, the Companies Act and the Catalist Rules.

Under the Companies Act, an equal access scheme must satisfy all of the following conditions:

- (a) offers for the purchase or acquisition of issued Shares shall be made to every person who holds issued Shares to purchase or acquire the same percentage of their issued Shares;
- (b) all of those persons shall be given a reasonable opportunity to accept the offers made; and
- (c) the terms of all the offers are the same, except that there shall be disregarded:
  - (i) differences in consideration attributable to the fact that offers may relate to Shares with different accrued dividend entitlements;
  - (ii) differences in consideration attributable to the fact that offers relate to Shares with different amounts remaining unpaid; and
  - (iii) differences in the offers introduced solely to ensure that each person is left with a whole number of Shares.

In addition, the Catalist Rules provide that, in making an Off-Market Purchase (in accordance with an equal access scheme), the Company must issue an offer document to all Shareholders which must contain at least the following information:

- (a) the terms and conditions of the offer;
- (b) the period and procedures for acceptances;
- (c) the reasons for the proposed share buyback;

# APPENDIX

## 30 DECEMBER 2022

- (d) the consequences, if any, of share buybacks by the Company that will arise under the Takeover Code or other applicable take-over rules;
- (e) whether the share buyback, if made, would have any effect on the listing of the Shares on the SGX-ST;
- (f) details of any share buyback made by the Company in the previous 12 months (whether Market Purchases or Off-Market Purchases in accordance with an equal access scheme), giving the total number of Shares purchased, the purchase price per Share or the highest and lowest prices paid for the purchases, where relevant, and the total consideration paid for the purchases; and
- (g) whether the Shares purchased by the Company will be cancelled or kept as treasury shares.

### 2.3.4 Maximum purchase price

The purchase price (excluding brokerage, stamp duty, applicable goods and services tax, clearance fees and other related expenses) to be paid for the Shares will be determined by the Directors.

However, the purchase price to be paid for the Shares as determined by the Directors must not exceed:

- (a) in the case of a Market Purchase, 105% of the Average Closing Price (as defined herein) of the Shares; and
- (b) in the case of an Off-Market Purchase pursuant to an equal access scheme, 120% of the Average Closing Price of the Shares,

(the “**Maximum Price**”) in each case, excluding related expenses of the purchase or acquisition.

For the above purposes:

“**Average Closing Price**” means the average of the closing market prices of the Shares over the last five (5) Market Days on which transactions in the Shares were recorded, before the date of the On-Market Purchase or, as the case may be, the date of the making of the offer pursuant to the Off-Market Purchase, and deemed to be adjusted, in accordance with the rules of the SGX-ST, for any corporate action that occurs during the relevant five (5) Market Day period and on the date of the On-Market Purchase or the case may be, the date of making offer pursuant to the Off-Market Purchase; and

“**date of the making of the offer**” means the date on which the Company makes an offer for the purchase or acquisition of Shares from Shareholders, stating the purchase price (which shall not be more than the Maximum Price calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase.

### 2.4 Source of Funds from Share Buyback

In purchasing or acquiring Shares pursuant to the Share Buyback Mandate, the Company may only apply funds legally available for such purchases or acquisitions as is provided in the Constitution and in accordance with the applicable laws in Singapore.

The Companies Act permits the Company to purchase or acquire its Shares out of capital, as well as from its distributable profits, so long as the Company is solvent. Pursuant to Section 76F(4) of the Companies Act, a Company is solvent if at the date of the payment made by the Company in consideration of acquiring any right with respect to the purchase or acquisition of its own Shares:

- (a) there is no ground on which the Company could be found to be unable to pay its debts;
- (b) if:
  - (i) it is intended to commence winding up of the Company within the period of 12 months immediately after the date of the payment, the Company will be able to pay its debts in full within the period of 12 months after the date of commencement of the winding up; or
  - (ii) it is not intended so to commence winding up, the Company will be able to pay its debts as they fall due within the period of 12 months immediately after the date of the payment; and

# APPENDIX

## 30 DECEMBER 2022

- (c) the value of the Company's assets is not less than the value of its liabilities (including contingent liabilities) and will not, after the proposed purchase, acquisition, variation or release (as the case may be), become less than the value of its liabilities (including contingent liabilities).

The Company intends to use internal sources of funds and/or external borrowings to finance its purchase or acquisition of the Shares. To effect the purchase of Shares pursuant to the Share Buyback Mandate, the Directors will consider, inter alia, the working capital requirements of the Company, the expansion and investment plans of the Company, the availability of internal resources, the rationale for the purchase or acquisition of Shares and the prevailing market conditions.

The Directors do not propose to exercise the Share Buyback Mandate to such an extent as would have a material adverse effect on the financial position of the Group. The purchase or acquisition of Shares pursuant to the Share Buyback Mandate will only be undertaken if, in the reasonable opinion of the Directors, it can benefit the Group and Shareholders.

### 2.5 Status of purchased Shares under the Share Buyback Mandate

A Share purchased or acquired by the Company pursuant to the Share Buyback Mandate is deemed cancelled immediately on purchase or acquisition (and all rights and privileges attached to the Share will expire on such cancellation) unless such Share is held by the Company as a treasury share. Accordingly, the total number of issued Shares will be diminished by the number of Shares purchased or acquired by the Company and which are not held as treasury shares.

All Shares purchased or acquired by the Company (other than treasury shares held by the Company to the extent permitted under the Companies Act), will be automatically de-listed by the SGX-ST, and the certificates in respect thereof will be cancelled and destroyed by the Company as soon as reasonably practicable following settlement of any such purchase or acquisition.

At the time of each purchase of Shares by the Company, the Directors will decide whether the Shares purchased will be cancelled or kept as treasury shares, or partly cancelled and partly kept as treasury shares, as the Directors deem fit in the interest of the Company at that time.

### 2.6 Treasury shares

Under the Companies Act, Shares purchased or acquired by the Company may be held or dealt with as treasury shares. Some of the provisions on treasury shares under the Companies Act are summarised below:

#### 2.6.1 Maximum holdings

The aggregate number of Shares held as treasury shares cannot at any time exceed ten percent (10%) of the total number of issued Shares. Any Shares in excess of this limit shall be disposed of or cancelled within six (6) months from the day the aforesaid limit is first exceeded or such further periods as Accounting & Corporate Regulatory Authority of Singapore ("ACRA") may allow.

#### 2.6.2 Voting and other rights

The Company cannot exercise any right in respect of treasury shares. In particular, the Company cannot exercise any right to attend or vote at meetings and for the purposes of the Companies Act, the Company shall be treated as having no right to vote and the treasury shares shall be treated as having no voting rights.

In addition, no dividend may be paid, and no other distribution (whether in cash or otherwise) of the Company's assets (including any distribution of assets to members of the Company on a winding up) may be made, to the Company in respect of treasury shares. However, the allotment of Shares as fully paid bonus Shares in respect of treasury shares is allowed. Also, a subdivision of any treasury share into treasury shares of a larger amount or consolidation of treasury shares into treasury shares of a smaller amount is allowed so long as the total value of the treasury shares after the subdivision or consolidation is the same as before.

### 2.6.3 Disposal and cancellation

Where Shares are held as treasury shares, the Company may at any time, but subject always to the Take-Over Code:

- (a) sell the treasury shares (or any of them) for cash;
- (b) transfer the treasury shares (or any of them) for the purposes of or pursuant to an employee's share scheme;
- (c) transfer the treasury shares (or any of them) as consideration for the acquisition of shares in or assets of another company or assets of a person;
- (d) cancel the treasury shares (or any of them); or
- (e) sell, transfer or otherwise use the treasury shares (or any of them) for such other purposes as may be prescribed by the Minister for Finance of Singapore.

Under Rule 704(31) of the Catalist Rules, an immediate announcement must be made of any sale, transfer, cancellation and/or use of treasury shares (in each case, the "usage"). Such announcement must include details such as the date of the usage, the purpose of the usage, the number of treasury shares comprised in the usage, the number of treasury shares before and after the usage, the percentage of the number of treasury shares comprised in the usage against the total number of issued shares (of the same class as the treasury shares) which are listed on the SGX-ST before and after the usage and the value of the treasury shares in relation to the usage.

### 2.7 Financial Effects of the Share Buyback Mandate

The financial effects on the Company and the Group arising from purchases or acquisition of Shares which may be made pursuant to the Share Buyback Mandate, based on the FY2022 Audited Financial Statements, are based on the assumptions set out below. Such financial effects will depend on, inter alia, whether the Shares are purchased or acquired out of capital and/or profits of the Company, the number of Shares purchased or acquired, the consideration paid for such Shares and whether the Shares purchased or acquired are held as treasury shares or cancelled.

#### 2.7.1 Purchase or acquisition out of capital or profits

Under the Companies Act, purchases or acquisitions of Shares by the Company may be made out of the Company's capital and/or profits so long as the Company is solvent.

Where the consideration paid by the Company for the purchase or acquisition of Shares is made out of capital, such consideration (excluding any expenses (excluding brokerage or commission) incurred directly in the purchase or acquisition) will not affect the amount available for the distribution of cash dividends by the Company.

Where the consideration paid by the Company for the purchase or acquisition of Shares is made out of profits, such consideration (excluding any expenses (excluding brokerage or commission) incurred directly in the purchase or acquisition) will correspondingly reduce the amount available for the distribution of cash dividends by the Company.

#### 2.7.2 Number of Shares acquired or purchased

The financial effects set out below are based on the FY2022 Audited Financial Statements and, accordingly, are based on a purchase or acquisition of Shares by the Company of up to a maximum limit of ten percent (10%) of the Shares in issue as at the Latest Practicable Date.

Purely for illustrative purposes, on the basis of the 898,117,536 Shares in issue as at the Latest Practicable Date and assuming no further Shares are issued and disregarding any Shares held by the Company as treasury shares on or prior to the AGM held on 17 January 2023, the purchase by the Company of up to the maximum limit of ten percent (10%) of its issued Shares will result in the purchase of approximately 89,811,753 (the "Maximum Number of Shares").

# APPENDIX

## 30 DECEMBER 2022

### 2.7.3 Maximum price for Shares acquired or purchased

In the case of Market Purchases by the Company and assuming that the Company purchases the Maximum Number of Shares at the Maximum Price of S\$0.0286 per Share (being the price equivalent to 105% of the Average Closing Price of the Shares traded on the SGX-ST for the five (5) consecutive Market Days immediately preceding the Latest Practicable Date), the maximum amount of funds required for the purchase is S\$2,568,616 (excluding ancillary expenses such as related brokerage, goods and services tax, stamp duties and clearance fees).

In the case of Off-Market Purchases by the Company and assuming that the Company purchases the Maximum Number of Shares at the Maximum Price of S\$0.0327 per Share (being the price equivalent to 120% of the Average Closing Price of the Shares traded on the SGX-ST for the five (5) consecutive Market Days immediately preceding the Latest Practicable Date), the maximum amount of funds required for the purchase is S\$2,936,844 (excluding ancillary expenses such as related brokerage, goods and services tax, stamp duties and clearance fees).

### 2.8 Illustrative financial effects

#### 2.8.1 For illustrative purposes only, on the basis of the assumptions set out in Paragraphs 2.7.2 and 2.7.3 above, and assuming that the Company had on the Latest Practicable Date purchased the Maximum Number of Shares pursuant to the Share Buyback Mandate, the financial effects of:

- (a) the purchase of the Maximum Number of Shares by the Company at the Maximum Price pursuant to the Share Buyback Mandate by way of purchases made out of capital and profits and held as treasury shares; and
- (b) the purchase of the Maximum Number of Shares by the Company at the Maximum Price pursuant to the Share Buyback Mandate by way of purchases made out of capital and profits and cancelled,

on the FY2022 Audited Financial Statements are set out below.

The financial effects are prepared on the following assumptions:

1. the Company has 898,117,536 issued and paid-up Shares (excluding Treasury Shares and subsidiary holdings) as at the Latest Practicable Date, and no additional Shares were issued after the Latest Practicable Date;
2. cash of up to S\$300,000 had been disbursed from the Company's wholly-owned subsidiaries to the Company prior to the purchase or acquisition of Shares by the Company;
3. the consideration for the purchase or acquisition of the Shares (excluding brokerage, stamp duties, commission, applicable goods and services tax, clearance fees and other related expenses) is financed by internal sources of funds and external borrowings; and
4. transaction costs are disregarded.

**The illustrations set out below are based on audited historical figures for the financial year ended 30 September 2022 and are purely for illustrative purposes only. Accordingly, such illustrations are not representative or otherwise indicative of future financial performance of the Company and/or the Group.**

Prior to any purchase or acquisition of Shares, the Company will consider financial factors (for instance, cash surplus, debt position and working capital requirements of the Company) and non-financial factors (for instance, market conditions and trading performance of the Shares) in assessing the impact on the Company and the Group of such purchase or acquisition.

# APPENDIX

## 30 DECEMBER 2022

The actual impact will depend on the number and price of the Shares bought back. As stated, the Directors do not propose to exercise the Share Buyback Mandate to such an extent that it would have a material adverse effect on the financial position of the Group. The purchase of Shares will only be effected after assessing the relative impact of a share buyback taking into consideration both financial factors (such as cash surplus, debt position and working capital requirements) and non-financial factors (such as share market conditions and performance of the Shares).

Shareholders should note that the financial effects set out above are for illustrative purposes only. It should be noted that although the Share Buyback Mandate will authorise the Company to purchase or acquire up to ten percent (10%) of the issued Shares (excluding any treasury shares and subsidiary holdings) as at the Approval Date, the Company may not necessarily purchase or be able to purchase the entire ten percent (10%) of the issued Shares (excluding any treasury shares and subsidiary holdings). In addition, the Company may cancel all or part of the Shares repurchased or hold all or part of the Shares repurchased in treasury. The Company will take into account both financial and non-financial factors (for example, stock market conditions and the performance of the Shares) in assessing the relative impact of a share buyback before execution. Taking all these things into consideration, the Board will only consider to proceed with the execution of the share buyback if the effects are beneficial to the Company and its shareholders.

### 2.9 Catalyst Rules

The Catalyst Rules specifies that a listed company shall report all purchases or acquisitions of its shares to the SGX-ST not later than 9.00 a.m., (a) in the case of a Market Purchase, on the Market Day following the day of purchase or acquisition of any of its shares and (b) in the case of an Off-Market Purchase under an equal access scheme, on the second Market Day after the close of acceptances of the offer.

Such announcement (which must be in the form of Appendix 8D of the Catalyst Rules) must include, inter alia, the details of the date of the purchase, the total number of shares purchased, the number of shares cancelled, the number of shares held as treasury shares, the purchase price per share or the highest and lowest prices paid for such shares, as applicable, and the total consideration (including stamp duties and clearing charges) paid or payable for the shares, the number of shares purchased as at the date of announcement (on a cumulative basis), the number of issued shares excluding treasury shares and the number of treasury shares held after the purchase.

While the Catalyst Rules do not expressly prohibit any purchase of shares by a listed company during any particular time or times, because the listed company would be regarded as an “insider” in relation to any proposed purchase or acquisition of its issued shares, the Company will not undertake any purchase or acquisition of Shares pursuant to the Share Buyback Mandate at any time after a price sensitive development has occurred or has been the subject of a decision until the price sensitive information has been publicly announced. In particular, in line with the best practices guide on securities dealings issued by the SGX-ST, the Company would not purchase or acquire any Shares through Market Purchases during the period of one month before the announcements of the Company’s full year and half year financial statements and ending on the date of announcement of the relevant results.

The Catalyst Rules also require a listed company to ensure that at least ten percent (10%) of any class of its listed securities must be held by public shareholders. The term “public”, as defined under the Catalyst Rules, means persons other than the directors, substantial shareholders, chief executive officers or controlling shareholders of a company and its subsidiaries, as well as Associates of such persons. As at the Latest Practicable Date, approximately 36.8% of the issued Shares are held by public Shareholders. In the event that the Company purchases the maximum number of Shares representing ten per cent (10%) of its issued ordinary share capital from such public Shareholders, the resultant percentage of the issued Shares held by the public Shareholders would be reduced to approximately 29.8%.

Accordingly, the Company is of the view that there is, at present, a sufficient number of Shares in public hands that would permit the Company to potentially undertake buy-backs of the Shares up to the full ten per cent (10%) limit pursuant to the proposed Share Buyback Mandate, without affecting adversely the orderly trading, liquidity and listing status of the Shares on SGX-ST.

The Company will not carry out any share buyback unless at least ten percent (10%) of its listed securities can be maintained in the hands of public Shareholders and that the number of Shares remaining in the hands of the public will not fall to such a level as to cause market illiquidity or to affect orderly trading.

## 30 DECEMBER 2022

### 2.10 Take-over Obligations

Appendix 2 of the Take-over Code contains the Share Buyback Guidance Note applicable as at the Latest Practicable Date. The take-over implications arising from any purchase or acquisition by the Company of its Shares are set out below:

#### 2.10.1 Obligation to make a take-over offer

If, as a result of any purchase or acquisition by the Company of its Shares, a Shareholder's proportionate interest in the voting capital of the Company increases, such increase will be treated as an acquisition for the purposes of Rule 14 of the Take-over Code. If such increase results in a change of effective control, or, as a result of such increase, a Shareholder or group of Shareholders acting in concert obtains or consolidates effective control of the Company, such Shareholder or group of Shareholders acting in concert could become obliged to make a mandatory take-over offer for the Company under Rule 14 of the Take-over Code.

Rule 14.1 of the Take-over Code requires, inter alia, that, except with the consent of the SIC, where:

- (a) any person acquires, whether by a series of transactions over a period of time or not, shares which (taken together with shares held or acquired by persons acting in concert with him) carry 30% or more of the voting rights of a company; or
- (b) any person who, together with persons acting in concert with him, holds not less than 30% but not more than 50% of the voting rights and such person, or any person acting in concert with him, acquires in any period of six (6) months additional shares carrying more than one per cent (1%) of the voting rights, such person shall extend immediately an offer on the basis set out below to the holders of any class of shares in the capital which carries votes and in which such person or persons acting in concert with him hold shares.

In addition to such person, each of the principal members of the group of persons acting in concert with him may, according to the circumstances of the case, have the obligation to extend an offer.

#### 2.10.2 Persons acting in concert

Under the Take-over Code, persons acting in concert comprise individuals or companies who, pursuant to an agreement or understanding (whether formal or informal), cooperate, through the acquisition by any of them of shares in a company, to obtain or consolidate effective control of that company.

Unless the contrary is established, the following persons will, inter alia, be presumed to be acting in concert:

- (a) the following companies:
  - (i) a company;
  - (ii) the parent company of (i);
  - (iii) the subsidiaries of (i);
  - (iv) the fellow subsidiaries of (i);
  - (v) the associated companies of any of (i), (ii), (iii) or (iv);
  - (vi) companies whose associated companies include any of (i), (ii), (iii), (iv) or (v);
- (b) a company with any of its directors (together with their close relatives, related trusts as well as companies controlled by any of the directors, their close relatives and related trusts); and
- (c) an individual, his close relatives, his related trusts, any person who is accustomed to act according to his instructions, companies controlled by any of the foregoing, and any person who has provided financial assistance (other than a bank in the ordinary course of business) to any of the above for the purchase of voting rights.

The circumstances under which shareholders of a company (including directors of the company) and persons acting in concert with them respectively will incur an obligation to make a take-over offer under Rule 14 of the Take-over Code after a purchase or acquisition of shares by the company are set out in Appendix 2 of the Take-over Code.

# APPENDIX

## 30 DECEMBER 2022

### 2.10.3 Effect of Rule 14 and Appendix 2 of the Take-over Code

In general terms, the effect of Rule 14 and Appendix 2 of the Take-over Code is that, unless exempted, Directors of the Company and persons acting in concert with them will incur an obligation to make a take-over offer for the Company under Rule 14 of the Take-over Code if, as a result of the Company purchasing or acquiring its Shares, the voting rights of such Directors and their concert parties would increase to 30% or more, or if the voting rights of such Directors and their concert parties fall between 30% and 50% of the Company's voting rights, the voting rights of such Directors and their concert parties would increase by more than one percent (1%) in any period of six (6) months.

Under Appendix 2 of the Take-over Code, a Shareholder not acting in concert with the Directors of the Company will not be required to make a take-over offer under Rule 14 of the Take-over Code if, as a result of the Company purchasing or acquiring its Shares, the voting rights of such Shareholder in the Company would increase to 30% or more, or, if such Shareholder holds between 30% and 50% of the Company's voting rights, the voting rights of such Shareholder would increase by more than one percent (1%) in any period of six (6) months. Such Shareholder need not abstain from voting in respect of the resolution authorising the Share Buyback Mandate.

The statements in this Appendix do not purport to be a comprehensive or exhaustive description of all implications that may arise under the Take-over Code. Shareholders who are in doubt are advised to consult their professional advisers and/or the SIC and/or the relevant authorities at the earliest opportunity as to whether an obligation to make a take-over offer would arise by reason of any share purchases or acquisitions by the Company pursuant to the Share Buyback Mandate.

### 2.10.4 Application of the Take-over Code

The interests of the Directors and Substantial Shareholders of the Company in the Shares are disclosed in Paragraph 3 below.

As at the Latest Practicable Date, none of the Directors or Substantial Shareholders of the Company would become obliged to make a take-over offer for the Company under Rule 14 of the Take-over Code as a result of the Share buybacks by the Company of the maximum limit of 10% of the total number of issued Shares as at the Latest Practicable Date.

Shareholders are advised to consult their professional advisers and/or the SIC and/or the relevant authorities at the earliest opportunity as to whether an obligation to make a takeover offer would arise by reason of any share buy-backs or acquisitions by the Company pursuant to the Share Buy-back Mandate.

### 2.11 Shares purchased by the Company
